

UNISOURCE SOLUTIONS

Welcome to simple.

Strategy, design, products, and services for financial workplaces.

UNISOURCE SOLUTIONS

WORKPLACE SOLUTIONS FOR FINANCE & BANKING.

We deliver workplace and facilities services for financial institutions — environments where client trust, regulatory compliance, and operational continuity are non-negotiable. From private client suites and trading floors to back-office operations, branch networks, and multi-site portfolio programs, we bring four decades of experience supporting some of Southern California's most respected financial organizations.

Our team is built to operate inside the demands of this sector: compliance-conscious procurement, secure-site protocols, after-hours installation, multi-location coordination, and audit-ready documentation. We help our clients maintain institutional-grade environments, keep facilities optimized, and support their people — without interrupting daily operations.

RECENT PROJECT: AERO FDH

OUR FINANCE & BANKING EXPERTISE

Finance and banking is one of our most established and trusted verticals. We support PNC Bank, LACERS, Mission Wealth, State Fund (SCIF), and Union Bank — relationships that have shaped our approach to compliance-conscious procurement, client-facing environments, and multi-site service delivery. Across Southern California, we have coordinated concurrent work across headquarters, branch, and back-office locations, supported by a customized web portal integrated with client procurement and facilities systems and a dedicated, client-familiar labor force.

Finance and banking projects require a specific operational discipline that we have built into our model. We hold a California contractor’s license (C61/D34) and CA Highway Patrol authority (CA86264) for industrial moving. Our 80+ in-house installers and movers are trained in client-specific access and security protocols and supervised by in-house leads — never subcontracted. Our customized portal provides real-time visibility into service requests, status reports, ROM budgets, project timelines, specifications, punch lists, and as-built drawings — giving facilities and procurement teams the documentation discipline financial institutions require. Backed by 400,000+ SF of warehousing, 120+ employees, and our integrated Account Management, Design, and Project Management teams, we deliver the scale and consistency multi-site financial organizations demand.

DESIGN CONSIDERATIONS FOR FINANCE & BANKING

Finance and banking workplaces must support client-facing excellence, complex regulatory requirements, high-volume operations, and the recruitment of competitive financial talent — all while maintaining the trust, discretion, and compliance standards the industry demands.

Client-Facing Environments & Brand Expression

Reception areas, private offices, and client meeting rooms that project credibility, reinforce brand standards, and create a confident first impression for high-net-worth clients and institutional partners.

Operational & Back-Office Workspaces

Efficient, ergonomic environments for operations, compliance, and support teams — designed to sustain productivity across high-volume, deadline-driven workdays.

Privacy & Acoustic Control

Acoustic treatments, enclosed offices, and zoned environments that protect sensitive client conversations, trading activity, and confidential financial discussions.

Ergonomics for High-Performance Work

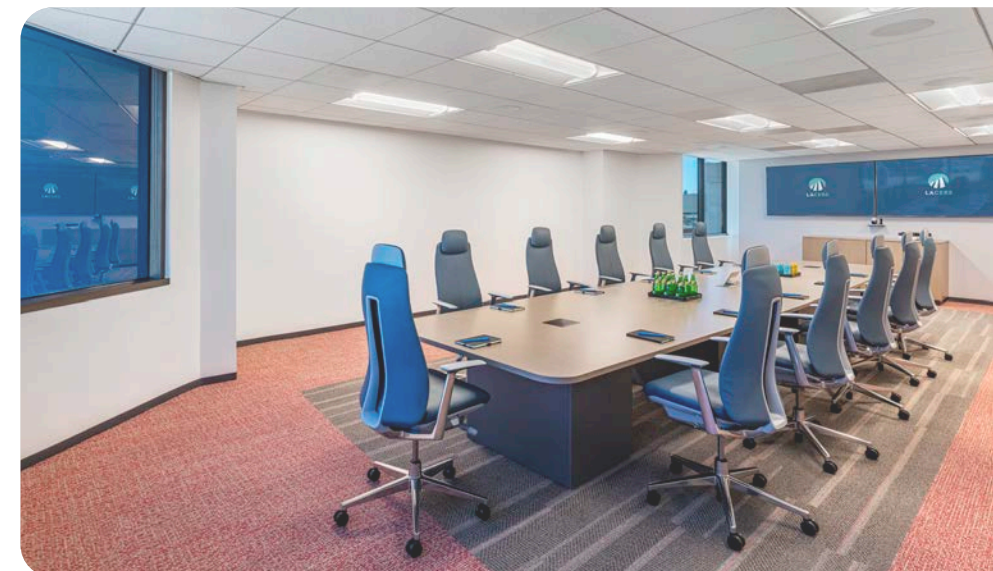

Sit-stand workstations, supportive seating, and monitor arm solutions for analysts, advisors, and operations staff managing extended schedules and multi-screen workflows.

Security & Access Control

Layouts and procurement processes that support controlled access, sightline management, and the physical security requirements of branch, headquarters, and back-office environments.

Talent Attraction & Retention

Modern amenity spaces, collaborative lounges, and hospitality-influenced break areas that help financial institutions compete for top-tier talent in a competitive market.

UNISOURCE SOLUTIONS

WORKPLACE PLANNING & PRODUCT SOURCING

Our talented team of designers partners with you to realize your workplace vision. From project concept to design development and complete documentation, we offer solutions to right-size your space — whether you're outfitting a corporate campus, a mission-critical operations center, or a collaborative innovation hub. We'll furnish your environment with new or existing product, and create spaces that support employee performance, team agility, and the culture of precision and innovation that drives your industry forward.

[SEE MORE >](#)

SPACE PLANNING + DESIGN

Our objective is to maximize the performance of your new or existing office space. Our team will get to know your needs, review existing conditions and develop an effective and efficient space plan. We'll provide material, fabric, and color samples to determine the right choices for your new workspace.

VISUALIZATION TOOLS

Our Design Studio offers photo realistic architectural renderings and animations of your project. The opportunity to preview different materials, fabrics and colors gives our designers the flexibility and freedom to mix and match in order to determine the right choices for your new workspace—well before you move in.

SYSTEMS INSTALLATION

We employ 120+ installers throughout California. Our in-depth knowledge of the major manufactured office systems allows us to provide quality support for every installation at a cost benefit.

CONTRACT FURNITURE

We have the best in class furniture and rep major manufacturers including: Haworth, Allsteel, Herman Miller, Kimball, Knoll, Steelcase, Teknion. With our large dealer network we can help meet your furnishing needs and source and install product reflective of your brand.

PROJECT MANAGEMENT

Our success is largely due to our ability to manage the projects we perform. Our experienced project managers ensure the successful execution of each phase of the furniture project, from the initial needs analysis, through design, installation and final punch list.

ERGONOMICS + WELLNESS

Proper ergonomics ensures happier and healthier employees. We provide consulting for program development, risk assessment, workplace design, furniture and technology solutions, as well as training to empower your team for peak performance and wellness.

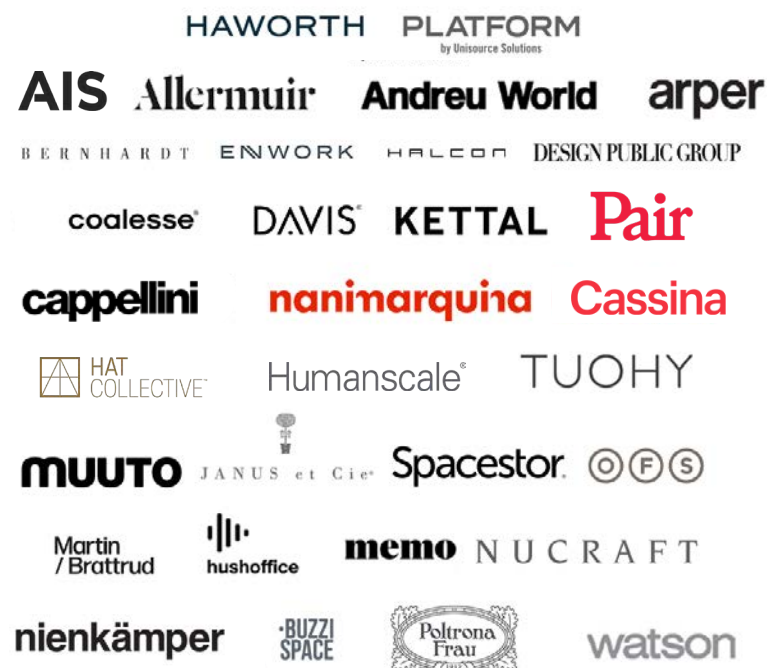

MANUFACTURERS

Today's rapidly changing world of commercial interiors demands a different kind of workplace solutions company: one that doesn't just sell furniture but has the ability to capture the culture of your corporate brand throughout its workspace. Unisource Solutions matches our clients with the perfect workspace furniture products from major retailers, global manufacturers, and boutique suppliers. With 300+ sources, plus our own in-house made-to-order products available via Platform, we guarantee we'll find the right product for the right solution.

LOGISTICS, INVENTORY & FACILITIES MANAGEMENT

We've been around since 1987 and have become one of the most extensive moving and installation services companies in California. Our goal is to make the most productive and affordable use of your furniture investment by "putting it back to work." Through our secure warehousing that uses fully enabled web applications and state-of-the-art technology, we bring furniture inventories, space allocation data, work order status, and customized reports directly to your desktop.

[SEE MORE >](#)

MOVE, ADD, CHANGE

We're prepared to meet any of your corporate furniture needs. If you're relocating or reconfiguring, we provide quick and effective furniture solutions. From small ergonomic requests to entire office moves and installations, we ensure you're maximizing your occupancy levels.

RELOCATION

As a licensed moving company, we make office relocation easy. We oversee jobs of all sizes, from local moves to national distribution of excess furniture. We devise a furniture reuse plan, reinstall systems furniture, and manage seating assignments. We pack, tag and deliver office furniture, equipment, and personal contents, working with you to make your move seamless.

PROCESS IMPROVEMENT

We improve efficiencies in all stages of the relocation and renovation process. Our project managers ensure success of each phase. We'll handle estimates, communications, documentation, and coordination, and align our efforts with other vendors.

WAREHOUSING

We own 200,000-sf of warehouse space in California. With our primary hub in Los Angeles and secondary facilities in major U.S. markets, we provide national storage and distribution of your company-owned furnishings.

DECOMMISSIONING

As workplace trends evolve, many companies are shifting the structure and size of their office spaces. Your project will always be completed on time, on budget while maintaining environmental responsibility. After your office decommissioning, we will provide a full report showing you how your items were diverted and/or donated.

INVENTORY MANAGEMENT & AVAILABILITY

For your in-office and offsite office needs, our web-based work order platform allows you to schedule service, verify job status, browse your inventory, and reserve product at any time from any location. We consistently monitor your inventory to ensure that we are storing high use product.

WORKPLACE STRATEGY & ANALYTICS

Workspace optimization during business transitions ensures higher ROI and greater utilization of valuable resources. Whether your firm is contracting or expanding, or just transitioning to a more agile work environment, we will provide you with analysis and a clear vision for how to best utilize your space. Our data driven process substantiates decisions. We do the research, provide the facts and figures and work with you to create agile environments that speak to multi-generations and appeal to diverse working styles.

[SEE MORE >](#)

OCCUPANCY & ENGAGEMENT

Providing tailored packages to optimize the employee experience, Unisource Solutions is proud to offer a combination of workplace services, and real-time activity and occupancy analytics to help you accomplish your goals using workforce analytics. We will assess your office to unlock undervalued space and more effective solutions to your business goals.

FURNITURE INVENTORY & ANALYSIS

The most cost effective solution will often involve the re-use of existing furniture and is one of the simplest ways to save money when redesigning your facility. We'll conduct a thorough inventory of your current product to determine its most effective use in your new space.

WORKPLACE PERFORMANCE METRICS

We provide verifiable performance measurements, from cost and occupancy analysis to employee satisfaction and engagement levels. Unisource Solutions measures workplace performance and satisfaction as a strategic tool to positively impact agility, activity based design, employee engagement and cost reductions. We deliver insights that drive better workplace strategies.

RESEARCH & SURVEYS

Employee opinion matters. We survey employees and learn what makes them thrive. The use of this data in the design and planning process substantiates decisions. We do the research, provide the facts and figures and work with you to create agile environments that speak to multi-generations and appeal to diverse working styles.

PLATFORM

by Unisource Solutions

CUSTOM SOLUTIONS

Introducing a radically different solution to sourcing workplace furniture: Platform Made-to-Order by Unisource Solutions. Our in-house design and manufacturing division is founded on the belief that effective workplaces reflect and define their corporate culture, brand, and vision.

Unique and Designed to Inspire

Across the nation, companies are working with Platform by Unisource to establish a compelling corporate image. Whether you want to introduce corporate colors into your furniture scheme or design pieces that have a distinct look and function, Platform can help. Our goal is for you to achieve affordable design solutions with a sense of ease. With us, you have greater control over how your culture is expressed, and greater control over how furniture products look, feel, and function.

Ready-Made Standards

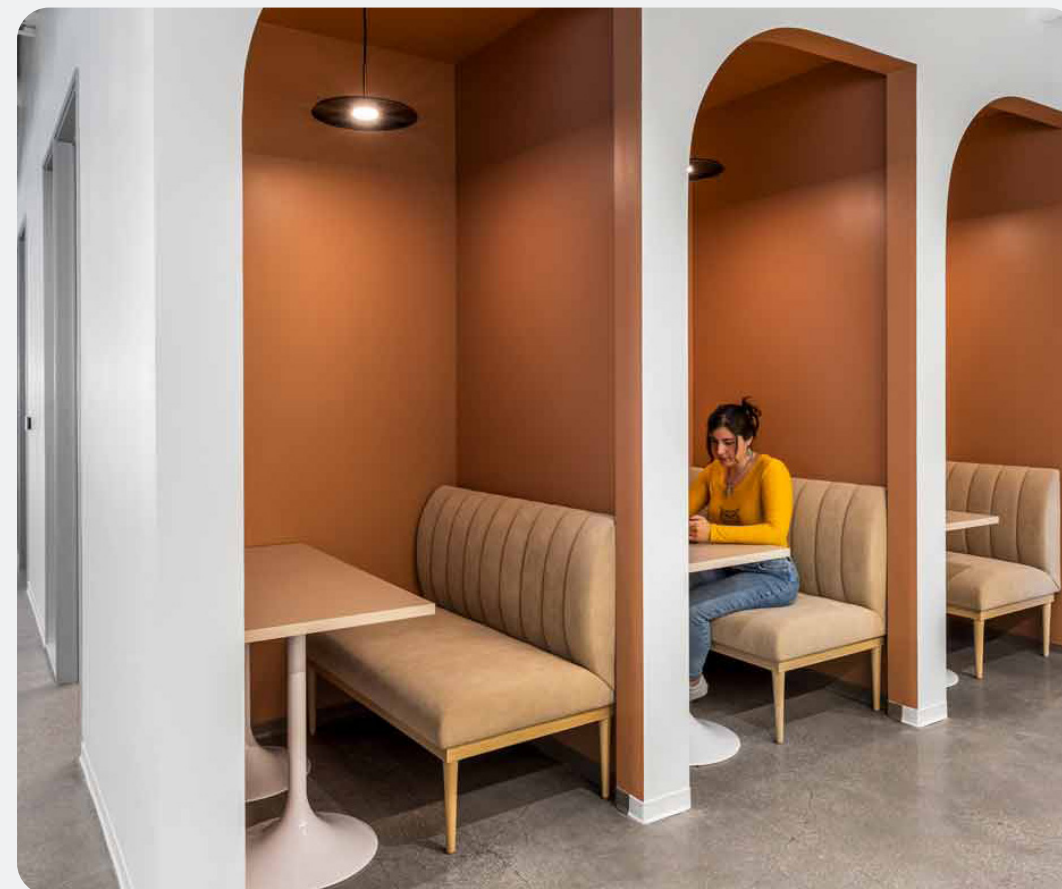

Our full line of standard products includes seating, tables, and casegoods with a range of customizable elements. The design reflects a unique blend of residential, mid-century appeal combined with a forward-thinking design aesthetic. With meticulous design we were able to capture a kind of refined beauty typically only found in residential and hospitality furniture. This is a perfect line of furniture for when you need quality products and quick delivery.

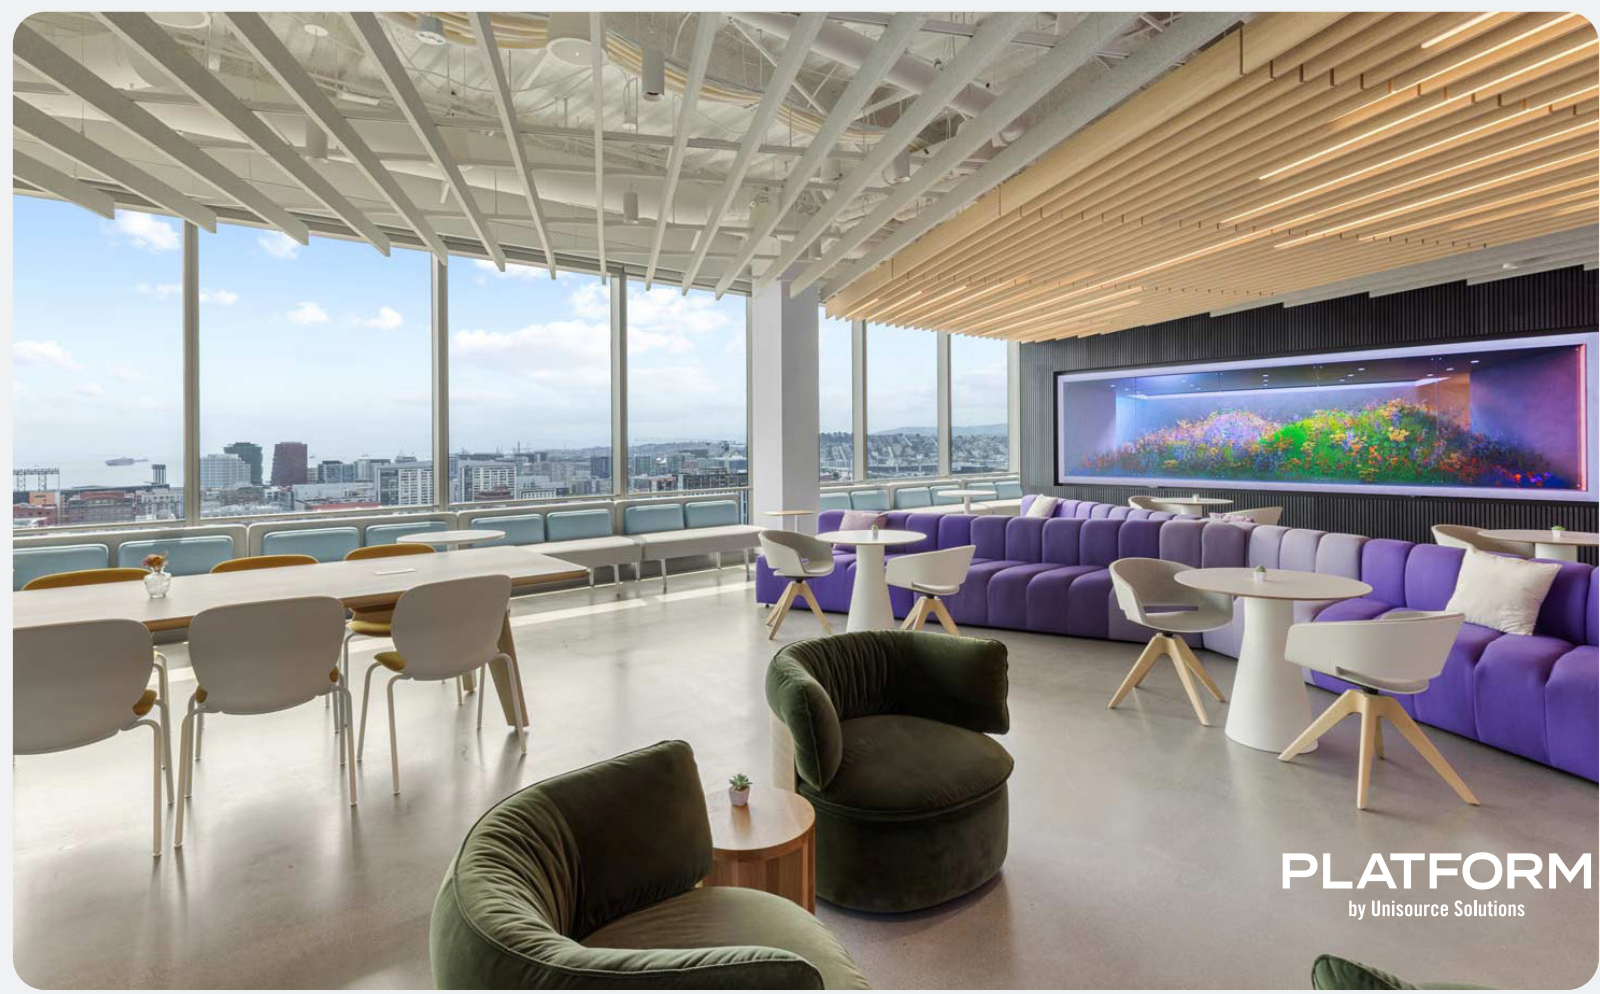

More Value. Better Service.

We see ourselves as an extension of your design team, working directly with them to curate furniture that meets their overall design goals. By eliminating the middle man and taking personal accountability of design and manufacturing, we are able to streamline the process to better meet budgets and schedules.

A Commitment to Sustainability

Platform by Unisource Solutions is committed to fostering a healthy planet, reducing our carbon impact, and continually coming together to work toward collective change for environmental and social responsibility. Our mission is to raise awareness, continue to diminish waste, and be a part of reducing both ours and our clients' carbon footprints. Each piece we build is fabricated locally, achieving the highest standards as part of the state of California. We are part of your net-zero strategy.
